

# Follow quarantine rules & Enjoy your carefree arrival

## Instructions for passengers before arriving in Taiwan and clearance at the airport

### Preparations abroad and symptomatic traveler testing measures

- Passengers who tested positive for COVID-19 abroad must defer their flights to Taiwan for 5 days from the specimen collection date.
- Arriving passengers who have experienced any suspected COVID-19 symptoms in the 14 days before arrival should receive a health assessment by a quarantine officer upon arrival and cooperate in undergoing a saliva PCR test.

New

For passengers arriving in Taiwan through direct cross-strait flights from 4 Chinese airports between Jan. 1 and Feb. 6, 2023 (scheduled flight time)

**!** To receive an SMS in Taiwan, please apply to activate relevant international services with your telecom service provider if you have a Chinese mobile phone number or international roaming phone number.

1. Fill in your information in **Entry Health Declaration System** within 24 hours before arriving in Taiwan.
2. Present the digital declaration certificate at check-in counter.

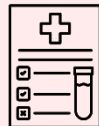

Entry Health Declaration System

New

For passengers arriving in Taiwan on flights departing from China and transiting through Hong Kong or Macao between Jan. 6 and Feb. 6, 2023 (scheduled flight time)

- Prepare a **negative PCR test report** issued within 48 hours prior to scheduled flight time or a **negative rapid antigen test report** issued within 24 hours prior to scheduled flight time.

### Clearance upon arrival

- Pick up 1 box of rapid antigen test (RAT) kit per person (passengers  $\geq 2$  years old)
- Passengers arriving in Taiwan through direct cross-strait flights from 4 Chinese airports and those coming to Taiwan through the special travel arrangement for the residents of Kinmen and Matsu counties during the Lunar New Year holiday are required to undergo a saliva-based PCR test at the airport (or port) of entry.

1 Receive the text message

2 Show your health declaration certificate

3 Collect deep-throat saliva sample for PCR test

- ✓ Do **not** eat or drink for 1 hour before sample collection.
- ✓ Spit 1-2 ml of saliva into the specimen tube.

### Self-initiated prevention measures

#### Stay in your residence

- ✓ Stay in a residence under the rule of **one-person-per-room** for the seven-day period.

#### When to test yourself?

- ✓ Test on the day of entry or the first day of the self-initiated prevention period (D0/D1).
- ✓ You need to have a negative result within two days before going out.
- ✓ Test when symptomatic.

Instructions for using RAT

#### Test result and treatment measures

- ✓ Follow the Self-initiated Prevention Guidelines.
