

本人以中華民國行政院衛生署署長身份，於2010年5月4日謹代表衛生署全體人員在此宣布

因體認到醫療照護相關感染對全球醫療體系及就醫病人所造成沉重的疾病負擔及顯著的經濟影響

並考量大部分的醫療照護相關感染是可治療及避免的

故響應世界衛生組織病人安全聯盟所設定之全球病人安全挑戰目標，致力於降低全球醫療照護相關感染事件發生

願藉此機會改善台灣醫療照護相關感染的發生情形

決心透過下列行動降低醫療照護相關感染

- 重視醫療照護相關感染的重要性
- 以國家層級發展及強調手部衛生推廣之相關活動
- 建置區域及縣市層級醫療照護相關感染資料，以作為規劃適當行動之依據
- 與世界衛生組織病人安全聯盟分享實務經驗及監測資料
- 運用世界衛生組織制定之策略及指引，推行醫療照護相關感染預防措施。如：加強手部衛生、輸液安全、預防接種及環境衛生安全

並決心與我國醫療衛生體系人員及相關學（協）會共同努力

推動最完善之措施及行動以防範醫療照護相關感染

促進並維持與世界衛生組織其他會員國各研究機構、學術及醫療單位的合作，以達經驗分享及資訊充分利用之目的

鼓勵各醫療機構管理階層支持，並以機構內核心人員擔任模範標竿，推行適當之介入措施，以減少醫療照護相關感染

中華民國行政院衛生署署長

楊志良

I, the Minister of Health, and on behalf of all at the Department of Health, Executive Yuan, R.O.C. (Taiwan), on 4 May 2010,

Recognizing the serious disease burden and significant economic impact that health care associated infection places on patients and health systems throughout the world,

Considering that the majority of these infections are treatable and avoidable,

Appreciating the momentum that the Global Patient Safety Challenge programme of the WHO World Alliance for Patient Safety is bringing to reduce health care-associated infection at the global level,

Emphasizing that a unique opportunity now exists to reverse the incidence of health care associated infection,

I resolve to work to reduce health care-associated infection through actions such as:

- Acknowledging the importance of health care-associated infection;
- Developing or enhancing ongoing campaigns at national or sub-national levels to promote and improve hand hygiene among health care providers;
- Making reliable information available on health care-associated infection at community and district levels to foster appropriate actions;
- Sharing experiences and, where appropriate, available surveillance data, with the WHO World Alliance for Patient Safety;
- Considering the use of WHO strategies and guidelines to tackle health care-associated infection, in particular in the areas of hand hygiene, blood safety, injection and immunization safety, clinical procedures safety and water, sanitation and waste management safety;

I resolve to work with health professionals and associations in this country:

To promote the highest standards of practice and behaviour to reduce the risks of health care-associated infection;

To foster and sustain collaboration with research institutions, training schools, educational centres, universities and health care settings of other WHO Member States to ensure full utilization of knowledge and experience in the field of health care-associated infection;

To encourage senior management support and role-modeling from key staff to promote the implementation of interventions to reduce health care-associated infection.

Taiwan,

Chih-liang Yang

Chih-Liang Yang, Minister, Department of Health, Executive Yuan
