

Summary

According to the laboratory surveillance¹, the number of enterovirus isolates continued to be low in the past 4 weeks (Figure 1). During week 25, the total number of outpatient and ER visits for enterovirus infection was 343, which was far below the national baseline (11,000 visits), show as Figure 2.

As of June 28, 2022, no new EVSC² case was confirmed in 2022(Figure 3).

For further information, please visit the Taiwan National Infectious Disease Statistics System (NIDSS) website at <https://nidss.cdc.gov.tw/en/Home/Index?op=1>
